

2021 ELSEVIER DISTINGUISHED LECTURE

Dr. Teresa Reyes

Associate Professor, University of Cincinnati, Cincinnati, OH, USA

SETTING THE STAGE: HOW DIET AND
NEUROIMMUNE FACTORS IN EARLY LIFE SHAPE
COGNITIVE DEVELOPMENT

Thursday, February 25

7-8:30 PM EST

Zoom link sent to all DNTS members by email

Dr. Reyes' research program is focused on identifying the mechanisms that underlie the effect of adversity in early life on brain development, with a specific interest in neuroimmune interactions and cognition.
